

AMINA BAHHA

Director, Program & Portfolio Management | Healthcare IT | Nonprofit

amina.baha@gmail.com | [LinkedIn](#) | Minneapolis, MN

PROFESSIONAL SUMMARY

Results-driven Director with 15+ years leading complex program and portfolio initiatives across healthcare technology, clinical informatics, and nonprofit operations. Proven track record of directing enterprise-scale Epic EHR implementations, clinical decision support programs, and digital transformation strategies that drive measurable improvements in operational efficiency, regulatory compliance, and patient outcomes. Adept at building and leading cross-functional teams, engaging C-suite and clinical stakeholders, and governing multi-million-dollar portfolios in highly regulated healthcare environments. Recognized for translating strategic organizational goals into executable program roadmaps, with a leadership style grounded in collaboration, accountability, and continuous improvement. MS in Information Technology Management (Cybersecurity), PMP, CSM | Harvard Business School Executive Education | Hubert H. Humphrey Fellow 2024–2025.

PROFESSIONAL EXPERIENCE

Refugee Resettlement Program Director | SEWA-AIFW

February 2024 – Present

- Serve as a member of the executive leadership team, contributing to organizational strategy, governance, and operational direction for a multi-program nonprofit serving refugee and newcomer populations.
- Design and scale culturally responsive service delivery models across social services, education, employment, advocacy, and mental health programs, applying program management frameworks to ensure measurable outcomes.
- Build and manage strategic partnerships with state agencies, government bodies, and community organizations to identify service gaps, secure resources, and expand program reach.
- Lead cross-functional teams and staff across program areas, applying portfolio management principles to prioritize initiatives, manage resources, and drive organizational growth.

Health Technologies Manager | Amherst Wilder Foundation

January 2020 – May 2023

- Led EHR implementation, optimization, and compliance initiatives to strengthen healthcare technology infrastructure across behavioral health and clinical programs.
- Partnered with therapists, psychiatrists, and mental health regulatory boards to ensure compliant, documentation-aligned service delivery within the CareLogic EHR platform.
- Directed data governance, reporting, and analytics workflows to support performance measurement, quality improvement, and regulatory reporting requirements.
- Served as the primary liaison between clinical, operational, and technical stakeholders to align system configuration, compliance standards, and organizational goals.

Operations Director & Founder | Afghan Cultural Society

June 2018 – January 2023

- Founded and directed nonprofit operations, overseeing compliance, budgeting, resource allocation, strategic planning, and program sustainability across a growing community-focused organization.
- Established governance structures, stakeholder relationships, and reporting systems to ensure organizational accountability and long-term impact.

Program Manager, Clinical Decision Support (CDS) | M Health Fairview

June 2017 – November 2020

- Directed an enterprise Clinical Decision Support portfolio spanning Epic EHR, ServiceNow, predictive analytics, NLP-powered tools, and business intelligence solutions across a major academic health system.
- Designed and implemented ServiceNow workflows to streamline incident, change, request, and project management processes, improving service delivery velocity and operational efficiency.
- Governed program portfolios from ideation through delivery: managed scope, schedule, budget, risk, and resource allocation across multiple concurrent high-priority initiatives.
- Partnered directly with C-suite executives, clinical leadership, and vendor stakeholders to ensure program alignment with organizational strategy, regulatory requirements, and digital transformation goals.

- Established and maintained program governance structures including steering committees, status reporting cadences, and executive dashboards to support transparent decision-making.

Enterprise Reporting Relationship Manager | North Memorial Medical Center *November 2014 – June 2017*

- Led enterprise data governance, interoperability strategy, and BI program, integrating Epic EHR, HL7 FHIR, and SAP S/4HANA Cloud data ecosystems to enable real-time organizational insights.
- Developed and delivered executive dashboards and reporting solutions using SAP BOE, Crystal Reports, SQL, Power BI, and Tableau, enabling data-driven strategic and operational decision-making.
- Managed stakeholder relationships across clinical, financial, and operational domains to align reporting priorities with organizational goals and regulatory requirements.

Lead Business Intelligence Developer | HealthEast

March 2013 – November 2014

- Led Epic EHR implementation and enterprise BI development, leveraging HL7 FHIR, SAP S/4HANA Cloud, BOE/Crystal Reports, SQL, Power BI, and Tableau to enhance reporting, compliance, and data-driven operations.

Epic Orders Developer | HealthPartners / ClinDoc

August 2010 – March 2013

- Partnered with clinical and business stakeholders to configure and optimize Epic EHR modules including ClinDoc, Orders, OpTime, and Reporting Workbench across multiple departments.

Business Systems Analyst II | Wells Fargo

April 2007 – August 2010

- Supported banking, trust, and wealth management operations through project documentation, business requirements, account conversions, and reporting. Contributed to the Wachovia–Wells Fargo merger integration.
